devices, increasing their satisfaction
and potential for longer visits.

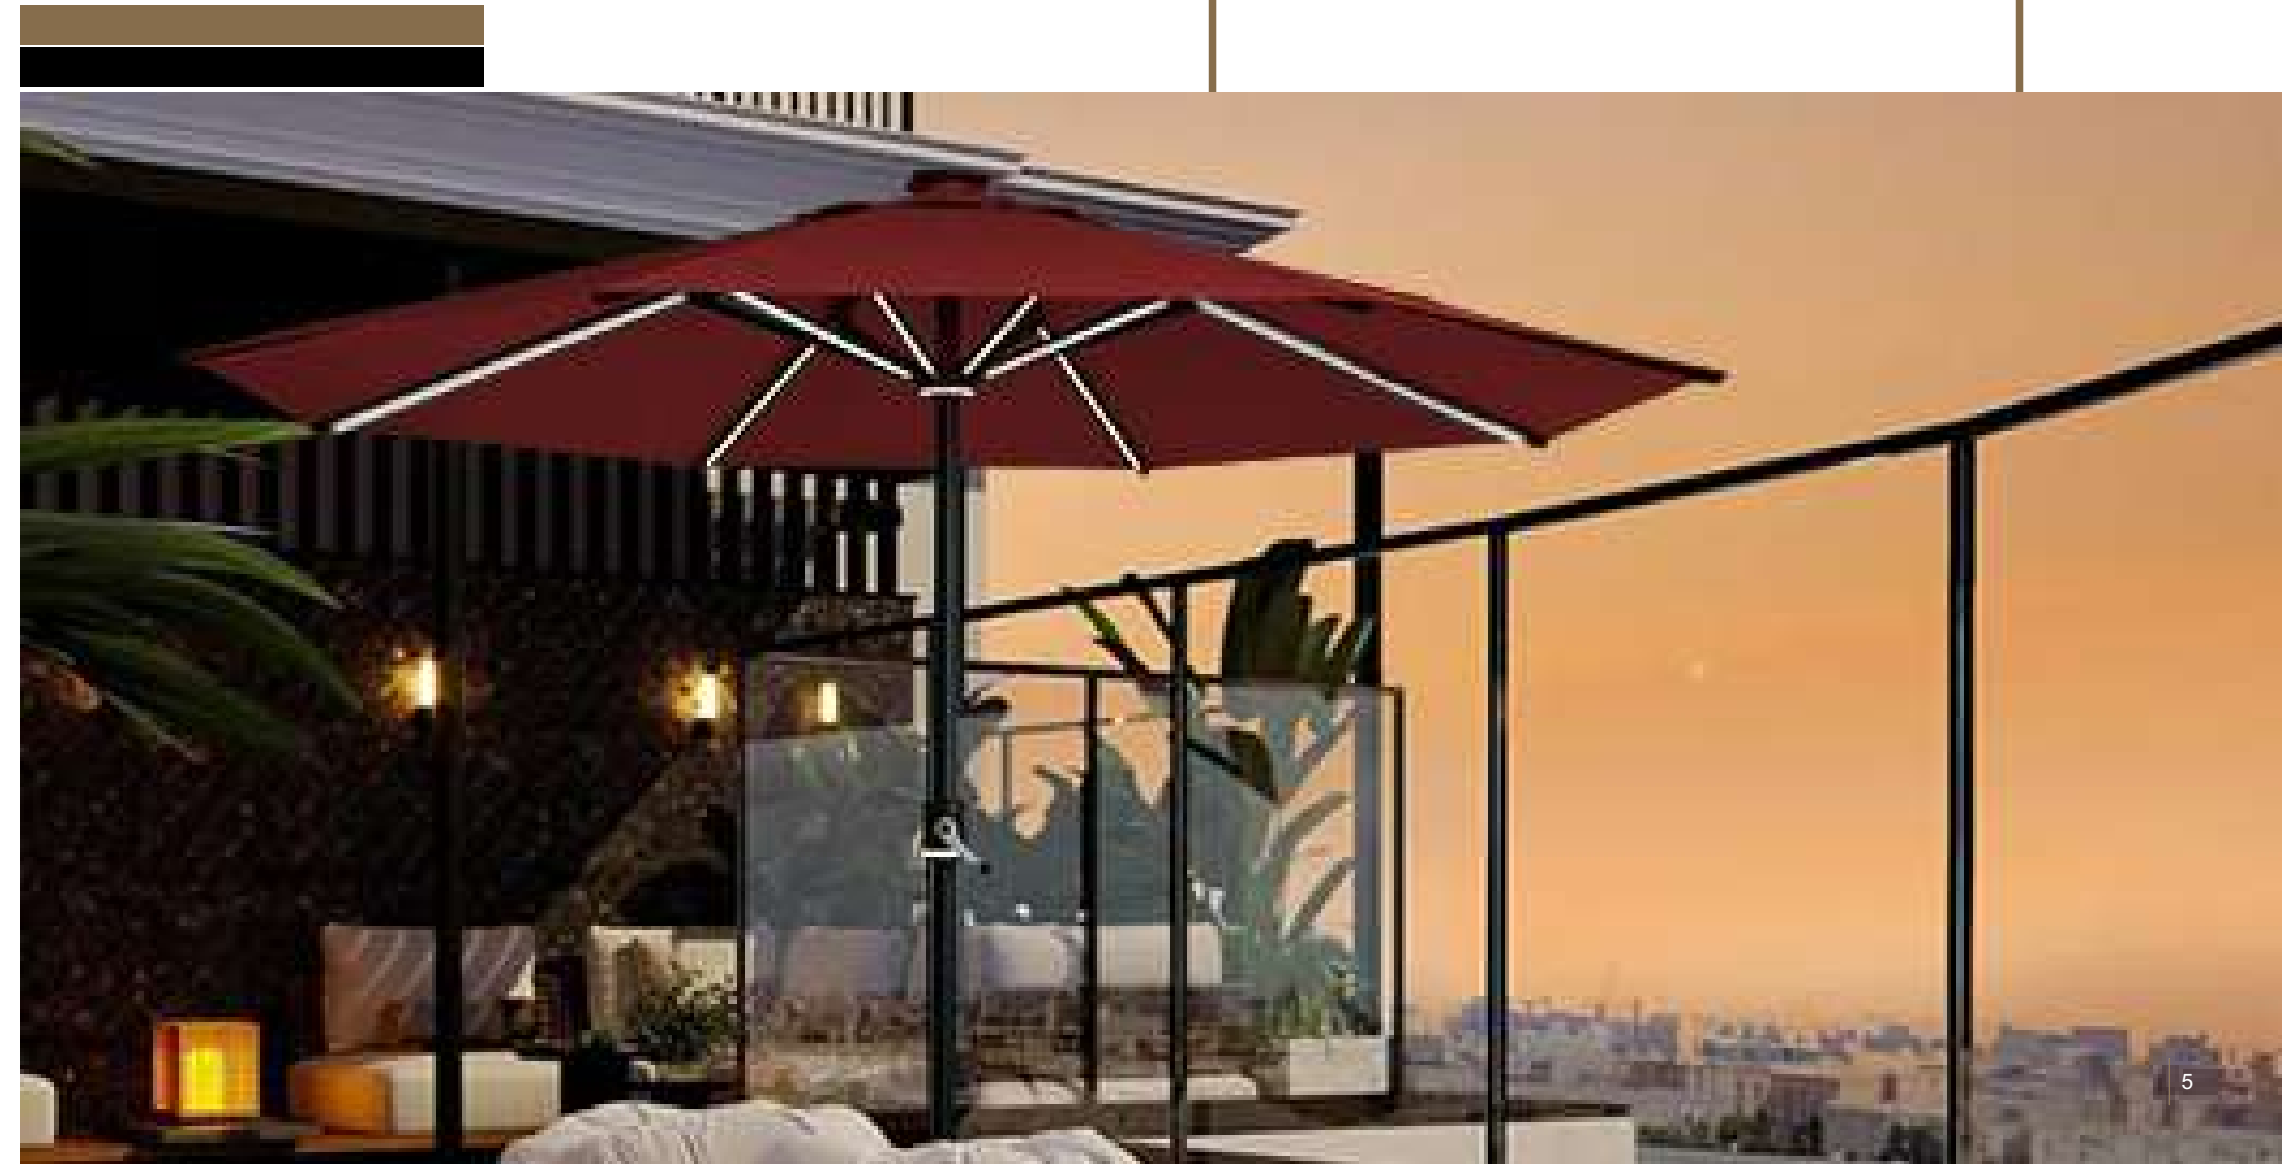

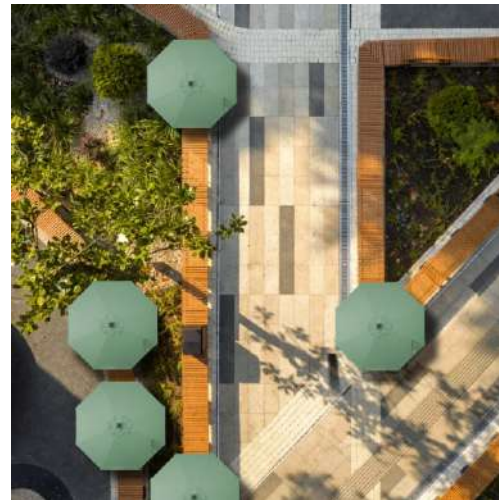

POOL LEISURE DOMESTIC

Pool, Leisure and Domestic

Eco-conscious and tech-savvy guests will appreciate the innovative, green initiative, setting the you apart.

Harnessing solar energy reduces electricity bills, promoting sustainability.

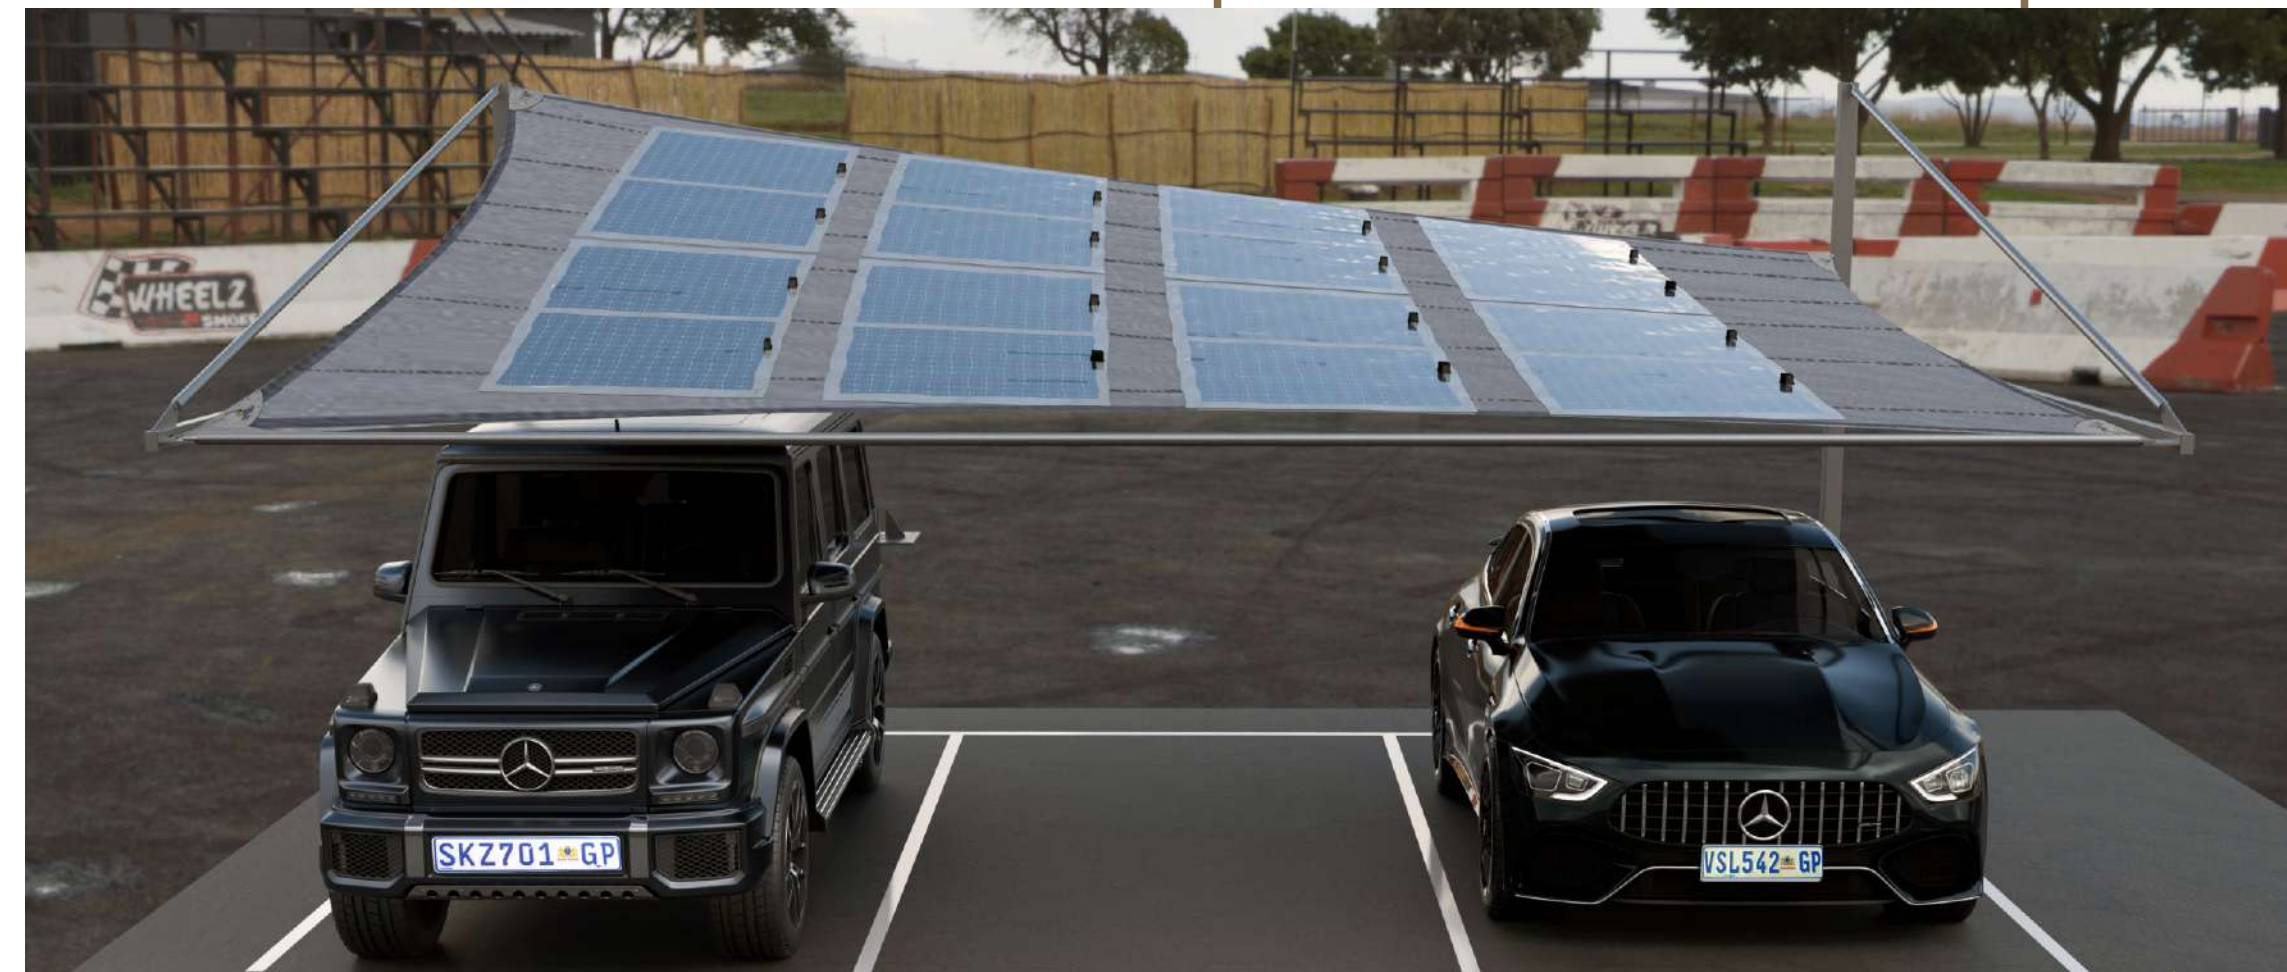

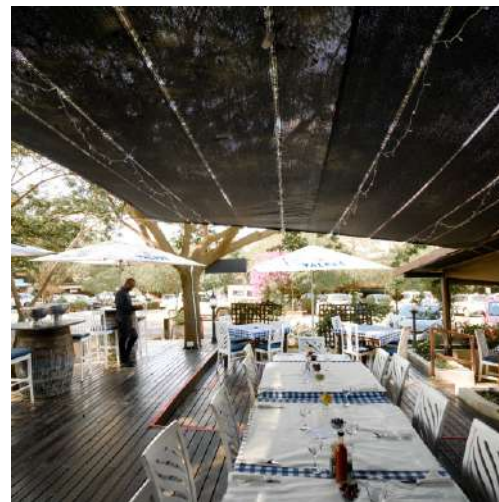

EXCLUSIVE

SOLAR SHADE SAILS

Domestic, Commercial and DIY

Embrace the future of outdoor shading with our advanced, multi functional shade cloth fabric.

Our exclusive shade cloth incorporates eyelets during the knitting process, allowing for the easy connection of lights and solar panels without compromising the integrity of the material.

EXCLUSIVE

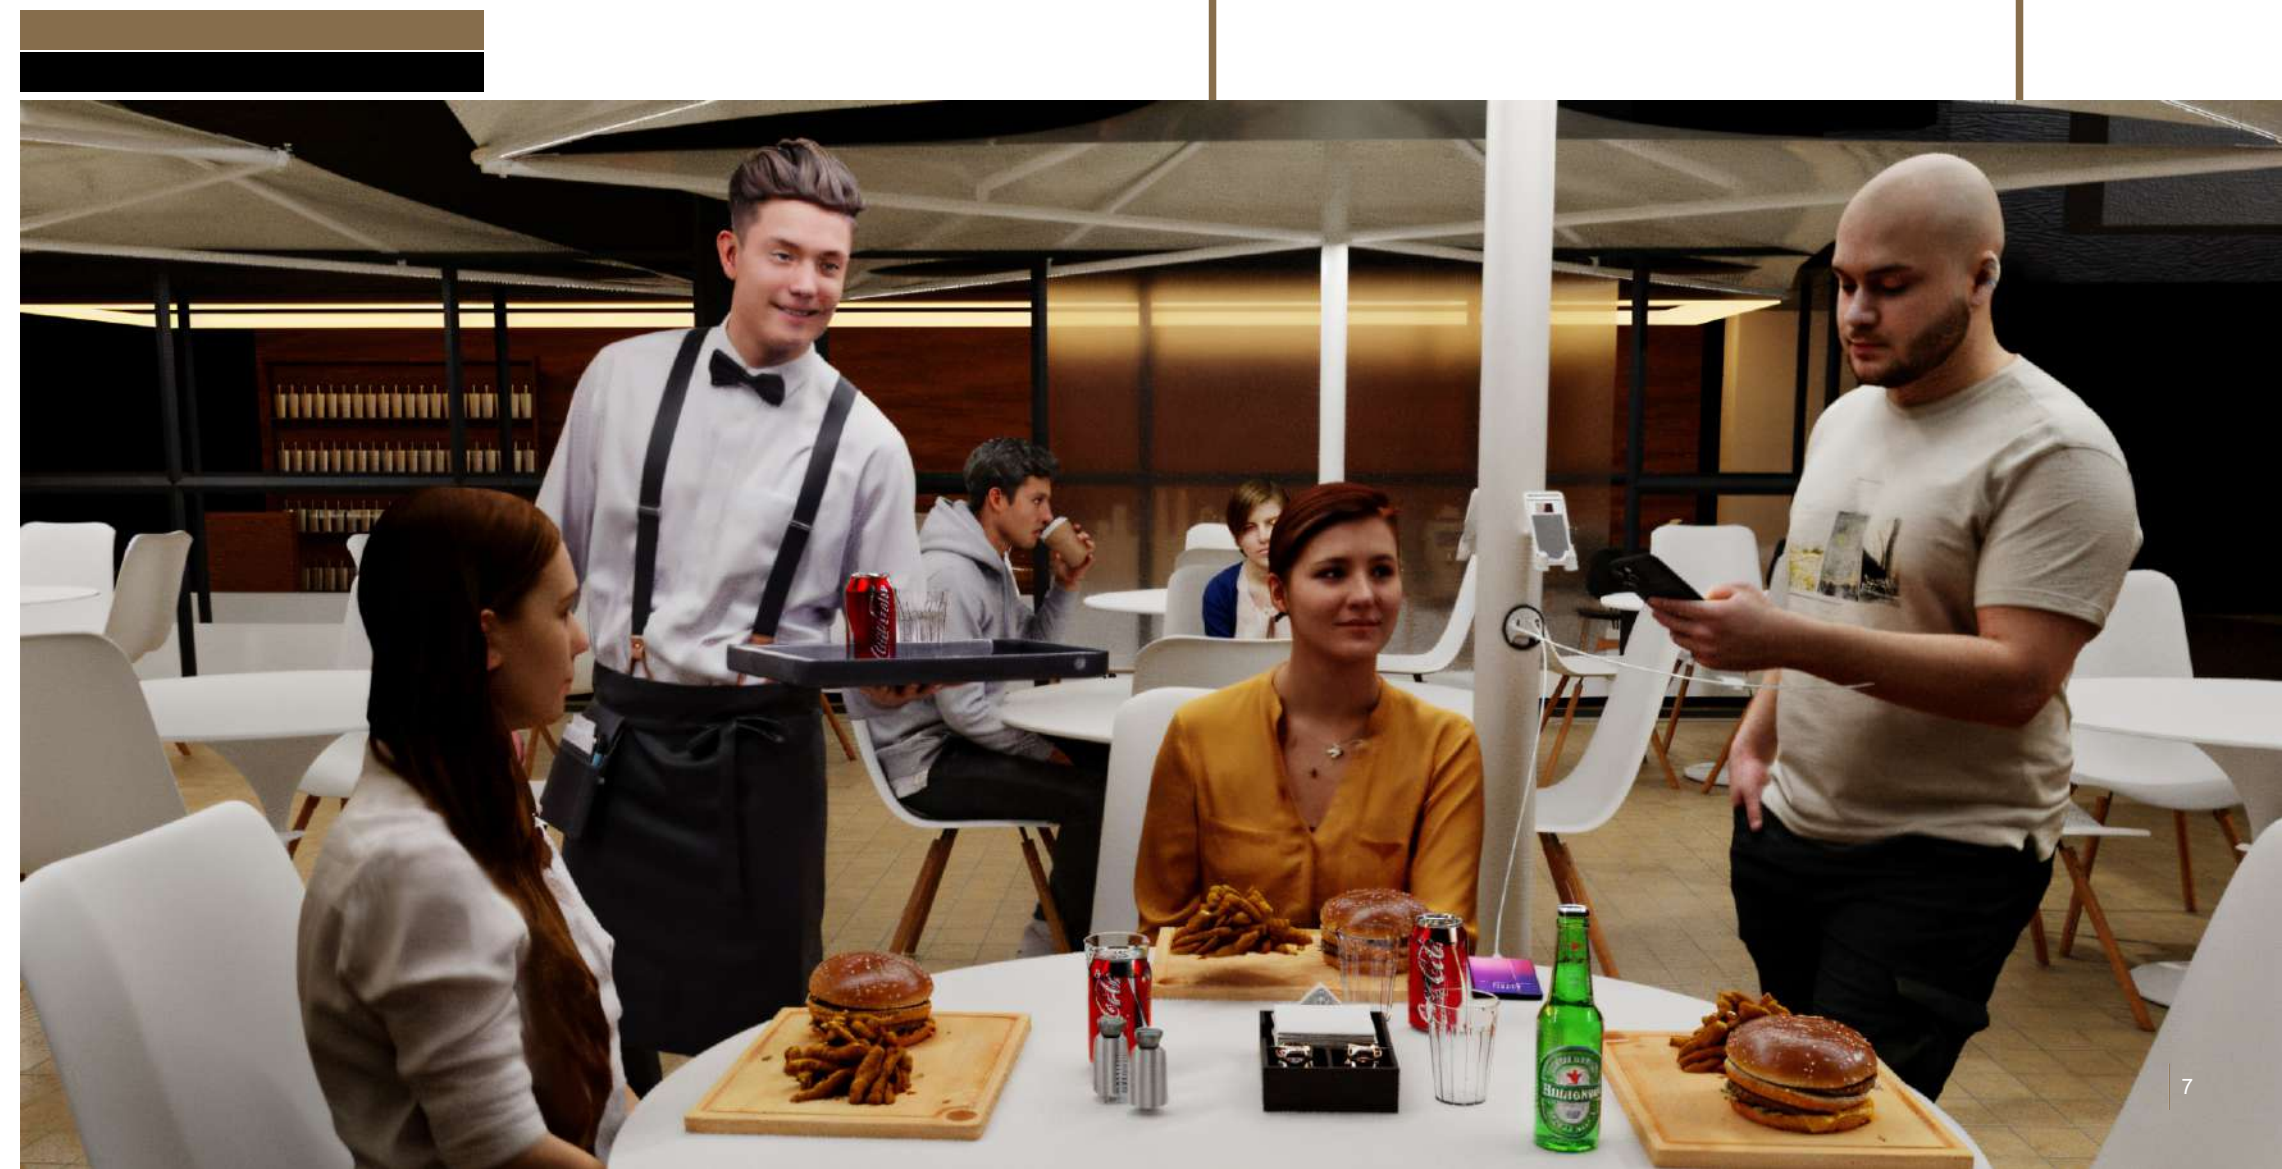

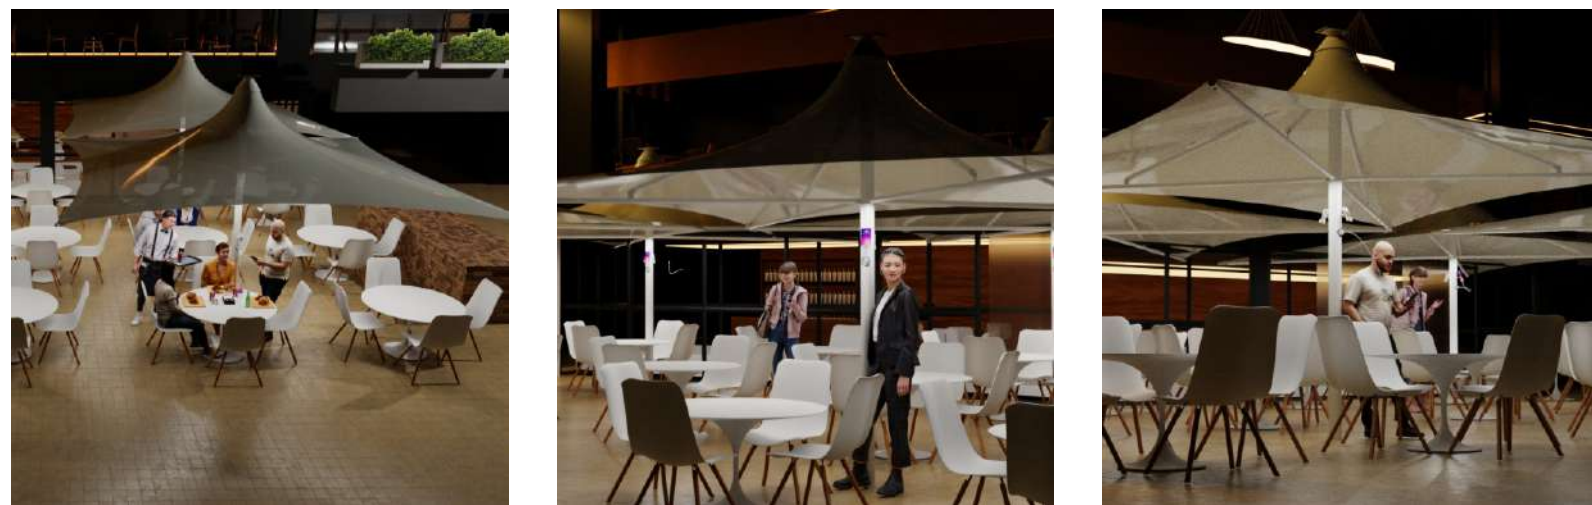

SOLAR TENSILE STRUCTURES

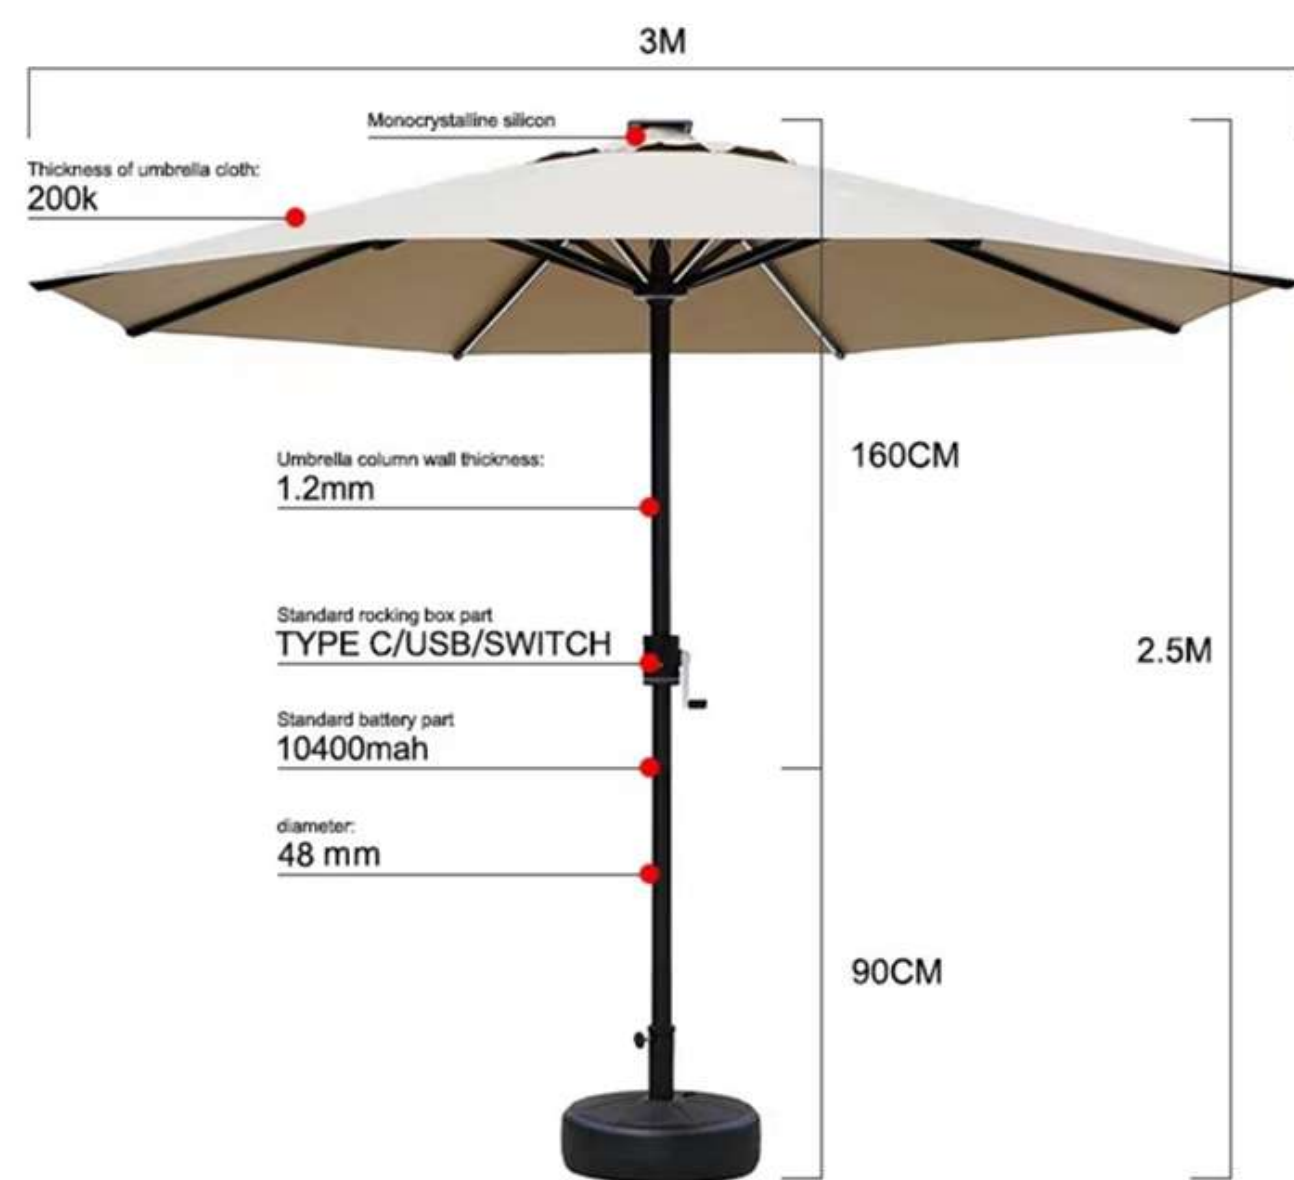

SOLARIS POWERKIT

Domestic, Commercial and DIY

Introducing the next evolution in smart shade: our tensile structures now come equipped with integrated solar technology. By harnessing the power of the sun, these innovative canopies charge built-in batteries throughout the day—powering ambient lighting at night and keeping your devices charged 24/7 via convenient USB hubs.

Sustainable, stylish, and self-sufficient, this is shade that works smarter.

Shape	Round/Square
Height	2.5m
Openiameter	3.0m
Shaft Diameter	48mm
Fabric	Yam Dyed Fabric
Color	Blackish Green, Sky Blue, Coffee, Red, Claret, Off white
Solar ModuleType	Monocrystalline silicon
Solar ModulePower	3.8W
Solar ModuleSize	15*15cm
Component Power	2.7W
Mode	Warm light Low: 5-7LX High: 12-15LX Warm light Low: 6-9LX High: 14-18LX
DC-IN	DC5V/1A(USB Type-C*1)
DC-OUT	DC5V/1A (USBType-A *1)
Battery Energy	38Wh,10400mAh
Package	1600*200*200mm
Weight	10KG

THE SOLAR ENERGY STORAGE PANEL IS CHARGED DURING THE DAY AND THE LAMP IS LIGHTING AT NIGHT, THE LED LAMP GLOWS FROM THE UMBRELLA

ELECTRICITY STORAGE AND TERMINAL CHARGING NOT EASY TO DAMAGE, BRIGHTER AND MORE BEAUTIFUL

NIGHT ILLUMINATION: DUAL COLOUR AMBIENT LIGHT EFFECTS WITH TWO GRADIENT LEVELS COLD LIGHT AND WARM LIGHT
